PROFESSIONAL SUMMARY

I am a Web Developer based in Dubai, UAE, with experience in developing full-stack web applications, backend services, payment gateway integrations, and enterprise-level solutions. My technical experience includes PHP, Python, JavaScript, MySQL, REST APIs, WebSocket APIs, FIX APIs, and Microsoft Azure infrastructure. I enjoy transforming business requirements into practical technical solutions, building reliable backend systems, and maintaining production applications.

TECHNICAL SKILLS

Backend:
PHP (Core & OOP), Laravel, Python, .NET, MVC Architecture
APIs & Integrations:
REST API, WebSocket API, FIX API, HMAC Request Signing, Webhook Verification, Payment Gateway Integration
Frontend:
HTML5, CSS3, JavaScript, AJAX, Tailwind CSS, React (Working Knowledge)
Databases:
MySQL, Database Design, Query Optimization, Indexing
Cloud & Infra:
Microsoft Azure, Virtual Machine Management, Linux, Docker Fundamentals
Tools & Platforms:
Git, GitHub Copilot, Claude Code, Cursor, OpenCart, WordPress, Figma, Adobe Photoshop, Canva

PROFESSIONAL EXPERIENCE

Web Developer June 2026 â€" Present

Three O Verse Global IT Services LLC â€" Dubai, UAE ***Projects: InstiXPAY & InstiX Trading Platform***

- Building and maintaining backend REST APIs using Python, PHP, and .NET.
- Working with REST, WebSocket, and FIX API integrations for high-throughput financial communication.
- Developing secure merchant-facing payment integrations using HMAC request signing and webhook verification.
- Building payment gateway widgets and transaction verification APIs.
- Developing comprehensive merchant dashboard features and analytics.
- Integrating OpenPayd and NymCard Banking-as-a-Service (BaaS) providers.
- Managing Azure virtual machines, load balancing, and supporting cloud infrastructure.
- Supporting production troubleshooting and Linux-hosted microservices.
- Working with PCI DSS SAQ-A compliance-aligned system architecture.

Software Developer November 2025 â€" May 2026

Elyts LLC â€" Dubai, UAE ***Project: kathis.fashion â€" Fashion E-Commerce Platform***

- Developed a full-stack e-commerce platform using PHP, MySQL, OpenCart, and JavaScript.
- **Increased online sales by 25%** within the first quarter of deployment.
- Managed 600+ product listings with inventory synchronization and automated categorization.
- Implemented multi-currency dynamic pricing (AED / GBP).
- Integrated third-party payment and shipping carrier REST APIs.
- Developed responsive, interactive user interfaces using JavaScript and AJAX.

- Designed complete UI/UX and design system using Figma.

Web Developer November 2020 â€“ August 2024

ABOSS Technologies â€“ India ***Dynamic CRM Applications***

- Developed dynamic CRM applications using PHP and MySQL for business automation.
- Built high-performance responsive interfaces using JavaScript and AJAX.
- Designed and optimized relational MySQL databases with custom indexing and query tuning.
- Managed end-to-end development lifecycles from requirements gathering through deployment.
- Collaborated closely with clients and cross-functional teams to deliver reliable web solutions.
